Chief Complaint

PE established patient

Assessment

1. Health Maintenance V70.0

Assessment Details:

Problem 1: (exam wnl, ecg utd, will return for pre-op visit in March and repeat at that time. pt is utd on cancer screenings. BP slightly high today due to stress. cont ongoing care with neuro/dentist/gi/derm/gyn. cont yearly physicals. fasting labs ordered, pt to obtain. will f/u results and notify pt.)

Discussion/Summary

Patient counseled and educated re age/sex appropriate preventive issues. Appropriate cancer prevention counseling provided. Weight loss counseling. Diet and exercise counseling. Patient advised to return for next preventive visit in 1 year. Cancer screening current with recommended guidelines.

Plan**Health Maintenance (V70.0)**

1. COMPREHENSIVE METABOLIC PANEL Requested for: 27Dec2013

Hypercholesterolemia (272.0), Health Maintenance (V70.0)

2. LIPID PROFILE W REFL TO DIRECT LDL Requested for: 27Dec2013

Osteopenia (733.90)

3. VITAMIN D 25 HYDROXY TOTAL PHP Requested for: 27Dec2013

Palpitations (Symptom) (785.1)

4. TSH Requested for: 27Dec2013

History of Present Illness

HM, Adult Female PH: Feels well. BP a little high today but her close friend was placed on hospice today, she is health care proxy. Very stressed.

Hilary has multiple updates:

Her migraines are better, "shooting pains" are gone. She is starting PT on Tuesday, ordered by Neuro, for neck and jaw. Still clenching significant amount of daytime. Pt follows with Dr. Kita. Plans on discussing botox injections as she had tried many, forcel only one she tolerates.

Dr. Selby-Knell is breast specialist, pt high risk. Has alternating MRI and mammogram every 6 months.

Ventral hernia surgery postponed until March 20th, will come for pre-op at that time. Dr. Roberts.

Has had genetics testing done, extensive w/u. Genetics team believes she has a mutation that has not been discovered yet (uterine/ovarian/breast CA). The patient is being seen for a health maintenance evaluation. The last health maintenance visit was 1 year(s) ago.

Social History: no domestic violence reported Household members include spouse. She is married. Work status: working full

DOB: [REDACTED]

Date of Service: 12/27/2013

time and occupation: millwork and kitchen co-owner. The patient has never smoked cigarettes. She reports occasional alcohol use. She has never used illicit drugs. The patient's health since the last visit is described as good. She has regular dental visits. She complains of vision problems. Vision care includes wearing glasses and having regular eye examinations. She has hearing loss. (20% hearing loss Rear. ENT Dr. Fortgang). Immunizations status: up to date.

Lifestyle: She does not have a healthy diet. (holiday season, plans to work on diet). She does not exercise regularly. She consumes alcohol. She has weight concerns. Weight control issues: overweight. She does not use tobacco. She denies drug use.

Reproductive health: the patient is postmenopausal. She reports normal menses. She uses no contraception. **Pregnancy history:** G2P 2, 2. She is sexually active. Cervical cancer screening includes a pap smear performed 2008 and pt had ovarian cancer so no longer needs one. Breast cancer screening includes a mammogram performed 2013. Colorectal cancer screening includes a colonoscopy performed 2011.

Metabolic screening includes DEXA performed 2010.
